### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest the combination of limitations as set forth in applicant's claims. In particular, the prior art does not disclose or suggest an electrical cabinet comprising a frame, a hinge arm extending from the frame and having a hinge pin at an end thereof. The hinge pin defines a chamfer. The hinge arm further includes a spacing member protruding radially beyond the hinge pin. A removable door is provided and includes a hinge recess, the hinge recess has an end surface, a hinge hole disposed in the end surface and guide surfaces forming a corner at which the spacing member of the hinge arm is seated in the corner when moved in a first position. The hinge arm is slidable relative to the hinge recess along the corner towards a second position. At the second position the hinge pin is inserted in the hinge hole while the chamfer guides and unseats the spacing member of the hinge arm out of seated engagement with the corner of the recess.

Corsi is considered the closest prior art. Corsi discloses an electrical closure comprising a hinge arm having a hinge pin at an end thereof. A hinge recess including a hinge hole (defined by the U-shaped opening of a shank portion) for receiving the hinge pin and having a corner for guiding the hinge arm to a first position at which the hinge arm is seated in the corner and from which the hinge arm is slidable relative to the hinge recess along the corner towards a second position. However, Corsi, at the least, fails to disclose or suggest a corner formed of guide surfaces, a hinge hole formed at an end of the corner, or a spacing member which is guided into and out of seated engagement with the corner as claimed. None of the other prior art references cure the deficiencies of Corsi whether taken alone or used in combination.

Art Unit: 3677

Therefore, the Examiner believes applicant's claims as presented are patentably distinct from the prior art of record.

### CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
